Subject: Class 1, Minor Permit Modification to Hazardous Waste Permit
No.TNHW-086

Pursuant to the Tennessee Hazardous Waste Management Act of 1977, as amended (Tennessee Code Annotated 68,Chapter 212, Part 1) and the regulations promulgated thereupon by the Tennessee Solid Waste Disposal Control Board, hazardous waste management facility permit number TNHW-086 issued to Tennessee Operations of Eastman Chemical Company on September 29, 1995 has been modified, pursuant to Rule 1200-1-11-.07(9)(c), by providing a more rigorous decontamination verification procedure and moving the closure date to mid 2007 rather than an unspecified time in the future. The modification applies to 3, 4000 gallon storage tanks designated as HWDU-7, HWDU-8 and HWSU-9.

Questions concerning these permit modifications can be directed to Ms. Janet Evans, Environmental Affairs, Tennessee Operation, Eastman Chemical Company at (423) 229-5775 or to Mr. John Webb, Johnson City Environmental Assistance Center, Division of Solid Waste Management at (423) 854-5465.
